

JOB OFFER

IT ENGINEER

THE COMPANY

Nintendo European Research and Development (N.E.R.D.) is a French subsidiary of Nintendo. We create key enabling software technologies for the most innovative and popular game consoles in the world. In close cooperation with other centers of excellence in Japan and USA, we ship bleeding edge solutions, powering new experiences at the heart of the game system, on hundreds of millions of consoles. Achievements include major contributions in video, media, imaging, cryptography, and hardware abstraction for Nintendo Wii U™, New Nintendo 3DS™, and other Nintendo platforms. Come and discover our team of highly skilled professionals, working in a privileged environment with a friendly atmosphere in the center of Paris.

POSITION DUTIES

- Bring everyday IT support to company members (install, configure and administer workstations and servers) in an efficient, positive, documented and timely manner
- Monitor, maintain and upgrade corporate infrastructure, including network, Windows & Unix servers, and backup system
- Ensure optimum access, performance, capacity and availability of technologies deployed
- Ensure optimum security level of overall infrastructure
- Maintain an up-to-date knowledge base of infrastructure and procedures
- Follow-up purchases and inventory

CANDIDATE PROFILE

You are a team player, with a rigorous, user-oriented mindset and a taste for technical challenges. You have significant experience in the field (at least one year in a similar position), and ideally hold a Master Degree in Computer Science.

REQUIRED SKILLS

- Administration of Windows and Linux systems
- Network administration (IP stack, wired and wireless, VPN, IDS)
- Strong background in security
- Written English
- Good knowledge of current workstation & server hardware

ADDITIONAL SKILLS AND EXPERIENCE

- Virtualization techniques
- System programming (shells, Python)
- Open Source culture

ADDITIONAL INFORMATION

This full-time position is located in central Paris, France.
